

## HEALTH SAFETY POLICY

**EIDO MARKETING & LOGISTICS LIMITED** Considers as an essential part of their general policy and priority responsibility, the following activities

- Physical protection (Health & Safety) of company personnel, all sub-Contractor personnel and third party.
- Continuous attention to all health safety matters, related to the activities performed, in order to prevent any possible health damage.
- Continuous attention in order to prevent any loss production or damage to equipment or property, third party included
- Continuous organizational, executive and technological effort for improvement of all the aspects regarding health safety protection

High safety level in the company contribute to the quality of its image

No economy or any other consideration comes before safety

No employee should suffer constraints concerning the reporting of risk or potential danger may be made, learning points of the panel highlighted and the circulation of facts of the incident effected.
